

ADITYA DATTATRAY SARSE Full Stack Web Developer

adityasarse362@gmail.com | 8446145308 | PUNE | GitHub | LinkedIn | Figma

Profile

Full Stack Web Developer with hands-on experience building scalable web applications using JavaScript, React.js, Next.js, Node.js, Express.js, MongoDB, and SQL. Skilled in developing responsive user interfaces, RESTful APIs, authentication systems, and database-driven applications. Passionate about writing clean, maintainable code, learning modern backend technologies, and building efficient, user-focused software solutions.

Professional Experience

- UI/UX Designer Intern, Renu Sharma Foundation (EpochFolio) 01/2026 – 05/2026 | Remote
- Designed intuitive and responsive user interfaces for web applications using Figma, focusing on usability, accessibility, and modern design principles.
 - Created wireframes, high-fidelity mockups, interactive prototypes, and reusable design systems to streamline the development process.
 - Collaborated closely with developers and stakeholders to translate design concepts into responsive and user-friendly web interfaces.
 - Conducted user research, usability analysis, and iterative design improvements to enhance user experience and engagement.
 - Contributed to product branding, typography, color systems, visual hierarchy, and component-based design for a consistent user experience.

Education

BE Information Technology, Pune Vidyarthi Griha's College of Engineering, Technology and Management 08/2023 – Present | PUNE
Savitribai Phule Pune University (SPPU)

Skills

Frontend Development HTML, CSS, JavaScript, React, Next.js, Tailwind CSS, GSAP, Three.js and Framer Motion, React Three Fiber	Backend Node.js, Express.js, REST APIs JWT Authentication, OAuth 2.0, bcrypt, FastAPI	Programming Java, Python, JavaScript	Databases MongoDB, PostgreSQL, SQL, Redis
Version Control Git, GitHub	UI / UX Design Wireframing, Prototyping, Mobile Design, Responsive Design	Design Tools Figma, Framer, Webflow, Adobe XD	

Languages

- HINDI , ENGLISH , MARATHI

Projects

- Clothing Brand E-Commerce Website , Clothing Brand Website 12/2025 – 02/2026
- Tech Stack:** React.js, Next.js, TypeScript, Tailwind CSS
 - Designed and developed a modern, responsive e-commerce website with a focus on performance and user experience.
 - Built reusable UI components and implemented responsive layouts for multiple screen sizes.
 - Developed product browsing, routing, and interactive user interfaces using React.js and Next.js.
 - Implemented form validation, state management, and optimized application performance.
 - Collaborated using Git and followed component-based development practices.
- VeriMed AI Research Agent 06/2026 – Present
- Tech Stack:** Python, FastAPI, REST APIs, BM25, AI APIs
 - Developed an AI-powered research assistant to retrieve, rank, and summarize medical research papers.
 - Built RESTful APIs using FastAPI to handle search requests and AI-powered responses.
 - Implemented BM25 ranking to improve the relevance of retrieved research papers.
 - Integrated AI APIs to generate accurate, context-aware summaries and insights.
 - Designed a modular backend architecture for scalability, maintainability, and future feature expansion.
- Full Stack Music Streaming Platform , Spotify Clone 06/2026 – 06/2026
- Tech Stack:** React.js, Node.js, Express.js, MongoDB, Tailwind CSS, JWT Authentication
 - Developed a full-stack music streaming platform with secure user authentication and role-based access.
 - Built RESTful APIs for user management, playlists, albums, and songs using Node.js and Express.js.
 - Integrated MongoDB for efficient data storage and retrieval.
 - Designed a responsive and interactive user interface using React.js and Tailwind CSS.
 - Implemented JWT authentication and protected routes to ensure secure access.
 - Followed a modular architecture and Git-based development workflow.
- Banking Transaction System 06/2026 – Present
- Tech Stack:** Node.js, Express.js, MongoDB, JWT, OAuth 2.0
 - Developed a secure banking application with user authentication, account management, and transaction tracking.
 - Designed RESTful APIs for account creation, fund transfers, and transaction history.
 - Implemented secure authentication using JWT and OAuth 2.0.
 - Integrated MongoDB Atlas for reliable and scalable database management.
 - Applied backend best practices, validation, and error handling to improve security and maintainability.

Courses

Google UX Design Professional Certificate, *Coursera* 03/2026 – Present | Online
Learning the complete **UX design process**, including user research, wireframing, prototyping, and usability testing. Creating user-centered designs and improving digital experiences using industry-standard design principles and tools.

Full-Stack Web Development, *Udemy* 02/2024 – Present | Online
Currently pursuing a full-stack development course covering frontend, backend, and database technologies. Learning to build responsive web applications using modern tools and best practices.
